

New River Gorge Ride (*~366 mi*)

This ride is not recommended for Thursday, the day of the Banquet.

No trip to WV is complete without a trip to the New River Gorge and the New River Bridge, which at 865 feet above the New River is the highest single span bridge. You'll want to take time to enjoy the visitors center and learn about the bridge and the National Park that surrounds it. You won't be disappointed! This ride is 367 miles long and will take you about 12 hours if you ride to the bottom of the Gorge.
